A Sensitive Society Subject

Talented and hygienic cleanliness is a subject of much interest to the scientific, social and busy world. It deserves all the attention it is receiving, and a great deal more, because it is the basis of all health and happiness. The way to obtain and retain it is, of course, to keep clean, and to do this from a toilet and hygienic standpoint there is nothing more suitable than Tyree's Antiseptic Powder. It is an almost indispensable adjunct to the toilet of every careful woman and man who appreciates the value and comfort of hygienic cleanliness. Tyree's Antiseptic Powder has a large and growing number of friends in the scientific, social and busy world. In solution when used for disease of the mucous membrane and for prickly heat, etc., and in many other ways peculiar to woman's requirements, it is unequalled. Tyree's Powder does not stain, possesses no odor and its use is accompanied by a most delightful sensation. Being inexpensive, its employment is not opposed by patients of moderate means. It is sold in original packages only at 10c, 25c and 50c each by all druggists, or the manufacturers.

FRENCH SELECT BEAUTY SPOT FOR PERSHING'S HOME

By N. C. PARKER.

AMERICAN FIELD HEADQUARTERS IN FRANCE, Sept. 5.—General Pershing has arrived from Paris accompanied by his staff.

This is one of the beauty spots of France, situated upon a slight rise in the midst of rolling country. The streets are lined with thick foliage and are well kept.

There are several beautiful residences, one of which was set aside for General Pershing. It is now being prepared for his occupancy.

The headquarters buildings were formerly barracks. They have been thoroughly overhauled, newly painted, and strung with wire for electric lights.

General Pershing will occupy a large room on the second floor. The blue-tinted walls, the single rug, and the plain, flat-topped desk all show spartan-like simplicity.

Nearby are the offices of the staff and the administration quarters, adjoining the offices of the intelligence bureau and those of the quartermaster and medical departments.

No sooner had headquarters been established than guards were thrown out along all the approaches to the village. As the correspondents made their way to the new headquarters they were stopped upon the principal road by a trio of guards composed of a soft-voiced Georgian, a lanky Kanak, and a burly Polish. It was the first time the correspondents had been compelled to show their American passes since their arrival.

BUNAU-VARILLA WOUNDED.

PARIS, Sept. 5.—Major Philippe Bunau-Varilla, who will be remembered by Americans as director-general of the old French Panama Canal Company and as Panamanian minister to Washington, has been wounded on duty. Several fragments of a shell struck him in the leg and amputation was necessary.

THE CITY'S SOCIAL SIDE

Ovation Given the President By Theatergoers

The President and Mrs. Wilson occupied a box at the National Theater last evening, and had as their guests, Mrs. Wilson's mother, Mrs. William H. Bolling, and her sister and brother, Miss Bertha Bolling and John Randolph Bolling. The President received a veritable ovation upon his entrance to the theater.

The President and Mrs. Wilson played their usual round of golf this morning.

The British ambassador, Sir Cecil Arthur Spring Rice, has returned to the embassy after a visit to Lady Spring Rice and their children at their summer home at Wood's Hole, Mass. Before leaving town for his vacation the ambassador was the guest of Thomas Beaumont Hohler, second counselor of the embassy, at his home in Massachusetts avenue.

The Russian ambassador, Boris Bakhmeteff, who spent the week end in New York, has gone to Saratoga Springs, where he will deliver an address before the American Bar Association.

CAREFUL AUTOING CAN SAVE \$175,000 TO CHICKEN SUPPLY

Autos and chickens are involved in the latest food conservation movement.

There are approximately 3,000,000 automobiles in America. If one sixth of these machines kill a chicken a year it means 500,000 dead chickens.

If each chicken weighs pound, at 35 cents a pound, that means an annual loss of \$175,000. If each hen lived happily on without mixing with automobiles, it might lay 100 eggs in its life time. That means 50,000,000 eggs lost.

The food administration says to the autoists, "Save the chicken."

After Vacation Peel Your Discolored Skin

Women returning from the seaside with browned, reddened or freckled complexions will be wise in immediately taking up the marcellized wax treatment. Weather-beaten skin had best come off, for no amount of "beautifying" will ever make such skin pretty to look at. The smart, safest, easiest way to shed the discolored skin is with the treatment suggested. Put the wax on before retiring, as you would cold cream, and rinse it off next morning with warm water. Minute particles of dead skin will peel off day by day, gradually showing the healthy, youthful skin beneath.

One ounce of marcellized wax, obtainable at any drug store, is enough to make any discolored or spotted complexion clear, white and satiny soft. Its action is so gentle no harm is caused and the face shows no trace of its use.—ADVT.
